Average cost per team member for new team \$125  
Average cost per team member for returning team \$70

**THEME:** Exploring the location, use, storage and movement of water.

**On your mark, get set, flow!** Drink in the 2017/2018 HYDRO DYNAMICS<sub>SM</sub> season and learn all about water – how we find, transport, use, or dispose of it. In the 2017/2018 *FIRST*<sup>®</sup> LEGO<sup>®</sup> League Challenge, students age 9 to 14 will make a splash with HYDRO DYNAMICS. What might become possible when we understand what happens to our water?

FIRST LEGO League challenges kids in over 80 countries to think like scientists and engineers. During the HYDRO DYNAMICS season, teams will choose and solve a real-world problem in the Project. They will also build, test, and program an autonomous robot using LEGO MINDSTORMS<sup>®</sup> technology to solve a set of missions in the Robot Game.

Throughout their experience, teams will operate under *FIRST* LEGO League signature set of Core Values, celebrating discovery, teamwork, and Gracious Professionalism<sup>®</sup>.
